

# **ORGANIZATION OF TIFFANY PARK HOMEOWNERS, INC.**

## **SUMMARY OF THE COVENANTS, CONDITIONS AND RESTRICTIONS**

*Note: Please contact a Board Member with any questions. Or you can e-mail Keith Murray, President at [kdmurray@cox-internet.com](mailto:kdmurray@cox-internet.com). This is a summary and does not contain all provisions.*

Tiffany Park is a residential community. The Covenants, Conditions and Restrictions (“CC&Rs”) were designed to maintain property values and promote a sense of community. They do this by focusing on the “Curb Appeal” of the community. As a basic rule – if it can’t be seen from the street, the homeowners’ association probably will not be involved. Generally, the restrictions contained within the CC&Rs are:

- Residences may not exceed two stories in height. Garages are limited to three (3) automobiles or less.
- Residences must have at a minimum of 2,000 square feet of living space. Exterior walls should be at least eighty percent masonry construction. All roofs shall be constructed of fireproof materials consisting of composition shingles over decking. Exterior colors, textures and materials must be compatible with the overall community appearance.
- No garage, or any portion thereof, shall be enclosed and used as part of the living area of the dwelling. Outbuildings will conform to the base covenants (no metal sheds).
- Trailers, mobile homes, motor homes, tents, shacks and other outbuildings and accessory structures cannot be used as residences.
- Campers, mobile homes, boats, trailers, etc. may not be parked on any lot unless concealed from public view.
- Vehicles cannot be parked on the street overnight. Commercial vehicles are not permitted to be parked overnight.
- All garage doors shall be kept closed except as necessary for ingress and egress.
- Trash containers should be kept out of sight from the street except on trash pickup days.
- No window air conditioning units unless they are concealed from public view.
- No repair work, dismantling or assembling of a motor vehicle or other machinery or equipment shall be permitted on any street, yard, driveway or any portion of a lot other than in an enclosed garage.
- Poles, flagpoles, masts, antennas, microwave platforms or satellite dishes, of any type, size or height shall not be visible from the street. Temporary flags for holidays or special events are not affected by this provision.
- Basketball stands and similar recreational material are permitted in the street only in cul-de-sacs with no outlets.
